EAST WASHINGTON SCHOOL CORPORATION

July 29, 2020

East Washington School Corporation has been informed of a positive COVID-19 test result from one of our staff members who attended the recent Preschool Round-Up on July 23, 2020. All recommended safety measures were closely followed during the Preschool Round-Up. This staff member was not in direct contact with any students during this event.

In our goal of full transparency, we wanted to make our community aware of this situation. We have been advised by the local health department that no further quarantine measures are necessary for any parents or children who attended the event. As always, remember to practice good hygiene and “Mask Up Musketeers.”

Sincerely,

Dennis Stockdale
Superintendent
